STEM
Programs
Accelerating
Resiliency &
Knowledge

S.P.A.R.K Programs

- Robot Camp for SOF Teen (1-day)
- Drone Camp for SOF Teens (1-day)
- Robot Camp for Military Teens (1-day)
- Robot Camp for Teens in a community of interest (1-day)

S.P.A.R.K.

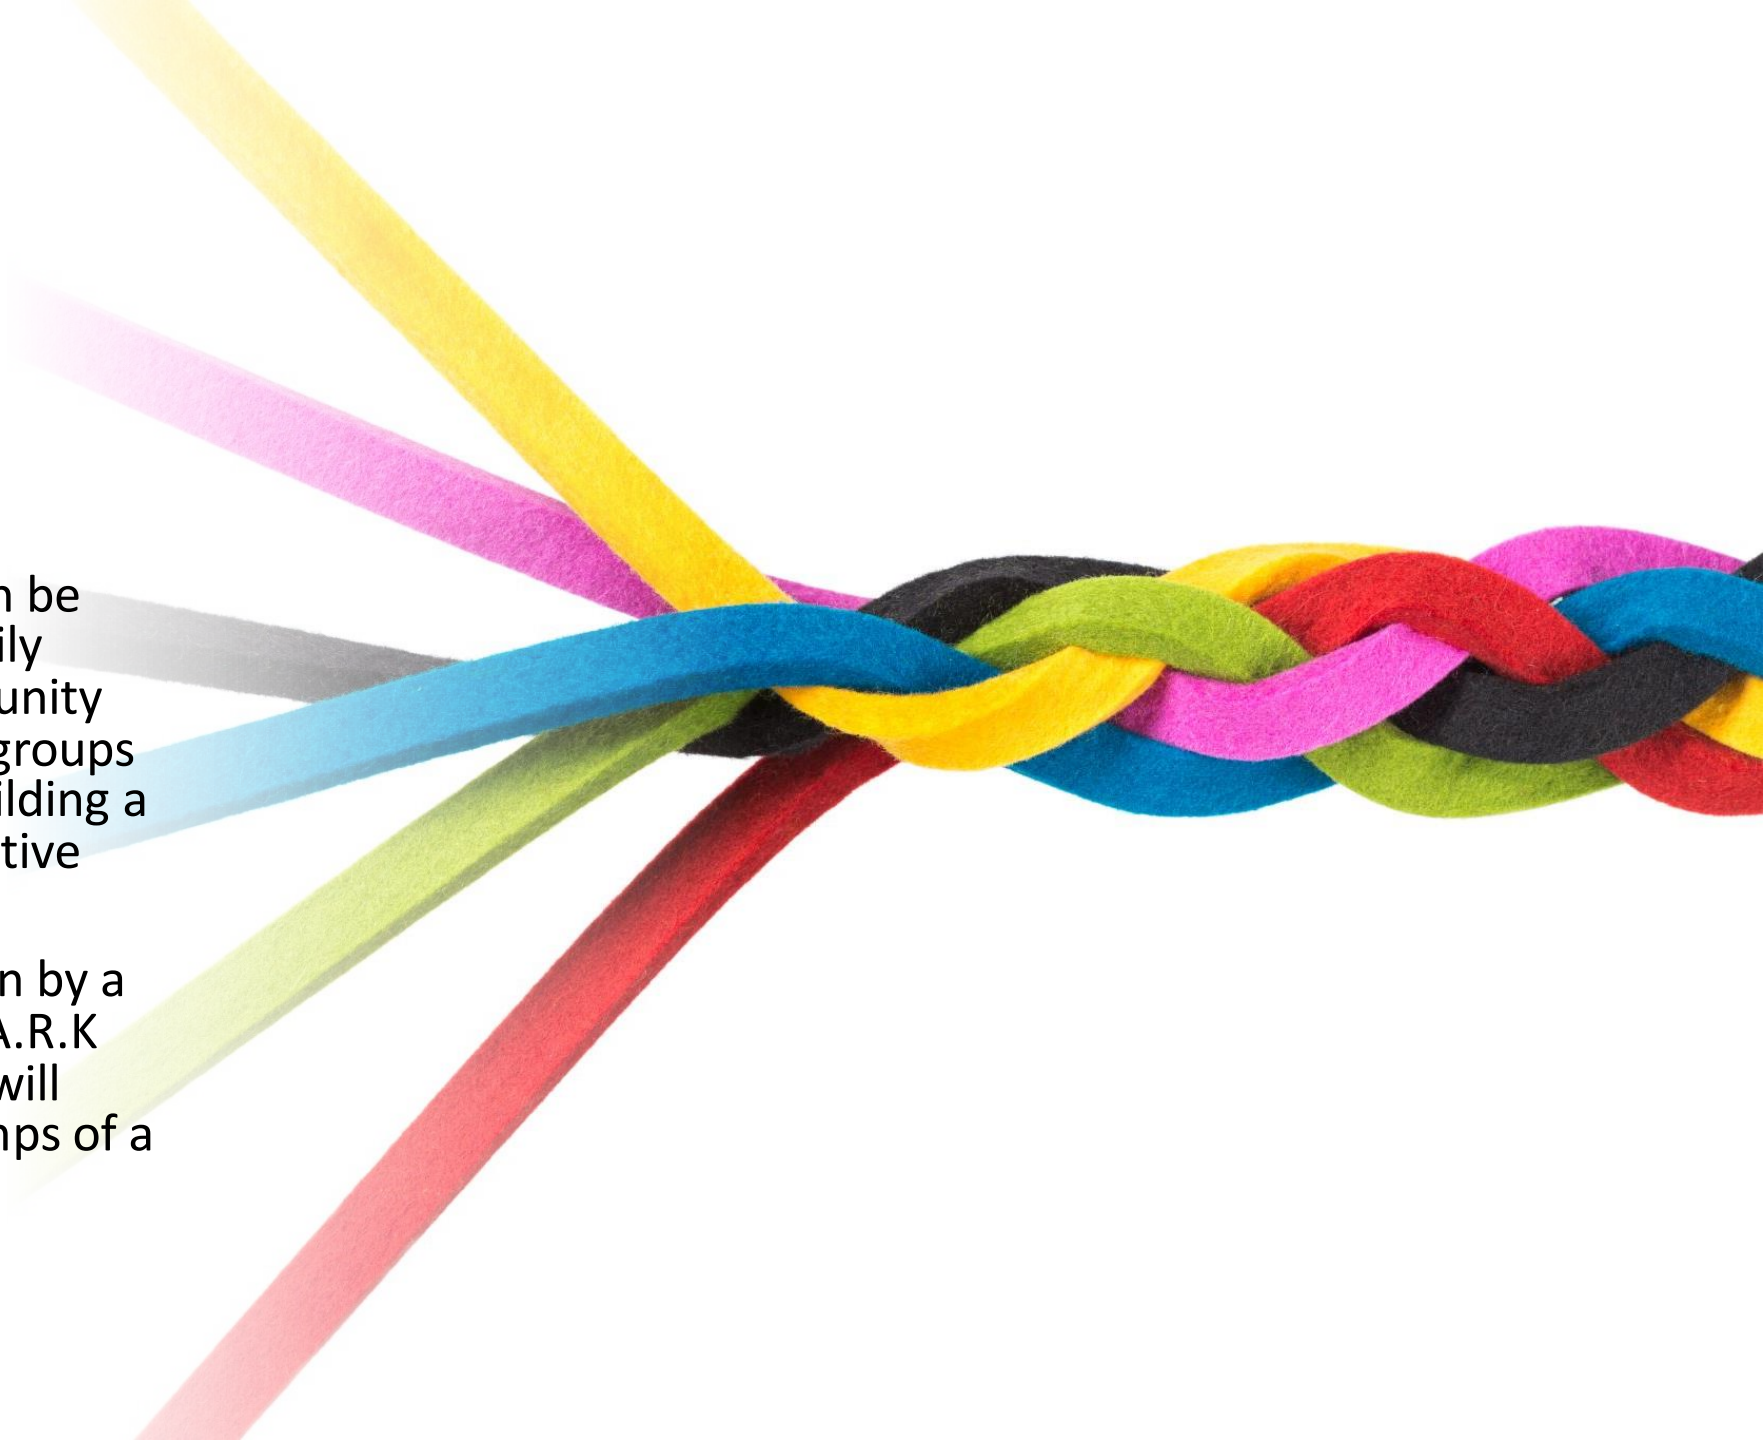

SPARK programs are designed to encourage exploration, getting out of your comfort zone, creative problem-solving, working in teams, and understanding the notion of “if you don’t succeed, try, try, again.”

SPARK Robot and Drone Camp programs are designed for Teens and are 1-Day Camps, held on weekends designed to fit in with busy schedules

S.P.A.R.K. Programs

- The Camps modules are designed as “kits” and can be organized by military family support elements, community groups, parents or other groups that are committed to building a more resilient and innovative future
- The Camps can also be run by a team of experienced S.P.A.R.K. Camp professionals who will organize and execute Camps of a fee.

S.P.A.R.K. Resources

- Embolden Valor is a 501(C)3 and able to facilitate donations the organization or community group fundraises to equip Camps
- Embolden Valor will also be a portal of information to connect teens, parents and leaders with additional learning tools, further information and STEM Subject Matter Experts (SME's)

The people who are
crazy enough to think
they can change the
world are the ones
who do. Steve Jobs
